

Why Instituto Tebaida chooses Navicat for teaching

About Instituto Tebaida

Instituto Tebaida is an educational institution in Colombia which facilitates the developments of students - spiritual, moral, intellectual, physical, social and aesthetic.

The Challenge

Before using Navicat, the database design process in Instituto Tebaida was very slow.

How Did Navicat Help?

“The processing performance was fantastic. Create and administer a MySQL database with Navicat is much easier for our students to comprehend both the program and concept,” says Jorge Giraldo.

Benefits

“The design is simpler and faster than any other database software we ever had” Jorge Giraldo continues. “You can have more control of the data connections where it is also easy to establish.”

About Navicat

Navicat is an award-winning database management and development tool that has been downloaded over 3 million times with 150,000 customers from over 138 countries. Customers include Fortune 500 companies, government departments, universities, system integrators, and commercial institutions in a variety of markets, including information technology, retails, medical, transportation, logistics, hospitality, banking, manufacturing, and many more.
