

Liceul Tehnologic Sf. Ioan De La Salle manages database with Navicat

About Liceul Tehnologic Sf. Ioan De La Salle

Liceul Tehnologic Sf. Ioan De La Salle is a Catholic School in Romania that provides quality education to students.

The Challenge

“It was extremely difficult to use Access databases on our server.”, according to José Maria Barcos.

How Did Navicat Help?

After implement Navicat, José Maria Barcos realized “Navicat has made it very easy to access, manage our MySQL database and perform tasks.”

Benefits

“The main benefit was that it is very easy to connect to a MySQL database, and having the knowledge of Access has made it extremely easy to use Navicat. Even though we are just beginners in this field of the MySQL database server but so far we’re satisfied with the performance of the program which is why we will keep using Navicat in our center as well as the new school year starting September,” José Maria Barcos points out.

About Navicat

Navicat is an award-winning database management and development tool that has been downloaded over 3 million times with 150,000 customers from over 138 countries. Customers include Fortune 500 companies, government departments, universities, system integrators, and commercial institutions in a variety of markets, including information technology, retails, medical, transportation, logistics, hospitality, banking, manufacturing, and many more.
